

## Funding for Switching to Woodfuel Heating

**You can get support and investment to help your organisation make the change to woodfuel heating from CO2Sense.**

Low carbon woodfuel offers a real alternative to heat from fossil fuels. Using woodfuel can help your organisation meet your carbon obligations, save money, and is a secure, local supply of fuel. And with the recent Government confirmation of the Renewable Heat Incentive, using woodfuel will earn your organisation payments.

**Your company can get funding from CO2Sense to help you to start taking advantage of woodfuel.** You can get a financial package best suited to your project, and you don't repay a single penny until you start seeing savings or receiving income from your woodfuel boiler.

### You can get investment for:

- **converting** your oil or coal boiler from using fossil fuel to woodfuel
- **purchasing** new equipment, such as boilers and plumbing, to set up a new woodfuel heating system
- **feasibility studies**, to see how your company could benefit from woodfuel
- other projects that increase the use of woodfuel as an **alternative to fossil fuels**.

**Plus**, if you're not sure whether woodfuel is right for your company, then you can enjoy a no-risk lease of our two megawatt demonstration wood pellet boiler, which can be installed for a trial period at your site. You'll be able to see firsthand how woodfuel can work for your organisation.

**To start your application today, call 0113 237 8419 or email [jan.phillips@co2sense.org.uk](mailto:jan.phillips@co2sense.org.uk), or visit [www.co2sense.org.uk/funding](http://www.co2sense.org.uk/funding)**
